

Hawea Community visioning

Post forum Survey results

After the report of the Hawea community visioning forum was produced, an on-line survey was produced and circulated via social media and also used in a face-to-face survey exercise undertaken around Hawea on Jan 9th.

The survey was used to gather more views around biggest challenges, future success and values as well as asking what was missing and testing the importance of the priority issues that emerged from the forum. In total 49 participants' views were recorded via the survey

Below are the summarised results from the survey. Where a figure eg x12 is recorded after a word it means that it was mentioned by 12 respondents. Descriptor words have been recorded alongside the word that they were grouped with.

Question: What ONE word that describes the biggest challenge Hawea is currently facing

Growth x 12
Development x 9
Infrastructure x 7
Shops / services x 3
Urbanisation
Covid

What ONE word that describes "success" for Hawea in the future? (think 30+years!).

Community x 6 Balanced Inclusion
Sustainable x 4 Conservation Water Quality
Peaceful/ Quiet x 4
Infrastructure x 3 Resilient Lake Access
Undeveloped x 2
Beautiful Uncrowded Unspoilt Unique Preservation Nature Rural
Future proofed Growth Opportunities Integrated Managed
Facilities Amenities

What are the three things or aspects that you value most about the Hawea area/community?

Community x 35 People Locals Families Friendly Passionate Caring Safe Close-knit Unpretentious
Individuality Connected Supportive Volunteers Inclusive Diverse Older generations
Nature/Scenery x 31 Views Landscapes Natural Beauty Rural Pristine Mountains Unspoilt Valleys
Trees Environment Gardens Food forests Untouched
Quiet x 22 Small Peace Chilled Village feel Low scale Uncrowded Tranquillity Holiday feeling
Lake x 15 Clean Clear Lakefront
Community facilities x 9 Amenities Community Centre Parks Library Shop School
Recreation x 7 Hunting Rivers Sail
Affordable x 3 Generous sections
Campground x 3

What are the three "things" that don't currently exist that you would like to see in Hawea in the future?

Community Facilities x 19 Rec centre Swimming Pool Gym Food gardens Food forest Food classes Medical centre A school Skate Park Playgrounds More facilities in new development areas Food waste collections. Repair facilities

Public transport x 17

Shops/commercial x 15 Supermarket Restaurants Pharmacy Market Hostel Vineyard cafes Central tourism hub Planned range of businesses

Infrastructure x 12 Sealed roads Kerb & Channel Two lane bridge Another boat ramp/jetty Better upkeep of roads Better wastewater treatment Connection between old and new parts of town

Active transport x9 Better walkways Cycleways Protected bike lanes Footpath and kerb & channel Bike tracks Safe intersections Links to neighbouring towns

Environment x 6 Less spraying Rabbit control Clean air in winter Investigate lake water quality Undeveloped lake front

Community x 4 Council listening A vision for all groups Diversity Employment

Thinking about priorities for the future, how would you rate the following topics between 1 and 10 where 10 is very important and 1 is not important?

The scores given to each topic by each respondent were totalled and are recorded below.

Managed growth that provides opportunities that benefit the community	378
Reducing the environmental impact of Hawea	330
Management of lake levels and shoreline erosion	327
An enviable network of tracks and walkways	321
Pest and weed control	298
Public transport services	291
A landscape plan for the area	291
Improvements to the lakefront reserve	280
Employment opportunities in Hawea	270
Provision for an Arts / crafts cultural hub	228

Is there anything else that you'd like to add in the context of working towards a successful future for Hawea and its' community

1. Medical services
2. Keep it for residents not tourists
3. More food forests nuts and fruit trees, Community gardens
4. Community consultation
5. Council taking account of our views and not caving into everything developers want to do
6. Community needs more control and say over development (autonomy) to avoid inappropriate development and inadequate infrastructure. Currently it seems to be at the mercy of an avaricious council and self-serving developers having little or no say in how it is being shaped now and the impacts this will have on its long term future
7. If 400 odd people are going to landscape their gardens over the next few years maybe a community owned landscaping supply centre, stop everyone heading to Wanaka with a trailer and possibly raise some cash for the community association at the same time?
8. The growth in houses/population has outpaced the infrastructure and planning.
9. I have concerns around the proposed development of a supervale and office space. This will detract from the township.
10. Positive outcomes and input like the workshop you just held. It was great!
11. Building community connection
12. A youth guardians group
13. Some opportunities have been lost. There was a plan that community worked on for Hawea.. that has been deleted it seems, cemetery rd boundary case in point. Seems community decisions only when it suits big picture. pity! Why would people do this all again!!!

14.Managed growth

15.There is a huge lack of infrastructure - roads and sewerage between Hawea and Wanaka that is not able to deal with the traffic that will come with these developments, this needs to be done prospectively not wait until it takes an hour to get to Wanaka to start considering the Albert Town Bridge and the intersections around the dam.

16.Community has always been Hāwea’s strong point and what draws many families here to live however lately the HCA has made a mistake on only having vax pass events. I think as a community we need to encouraging inclusion of all people, young and old, any race, any religion and any vax status. We need to be showing our children that inclusion and community is an integral part of life That our community is listened to when it expresses its opinion, rather than being cast as just being negative. There are real issues that need to be addressed so that the growth that has been forced on us can be catered for and still provide a well-functioning community.

17. There is a great opportunity to build on the two “villages” one by the lake and one at the back of the flats - but not if all the flats are consumed by land inefficient single level boxes

Your relationship to Hawea?

I live in Hawea	23
I previously lived in Hawea	2
I visit for holidays	9
